

# NurseryCam Secure Webcam Facility

## Staff Info

Staffs at nurseries that feature NurseryCam are pleasantly surprised when they learn how it works. The purpose of the NurseryCam system is to enable working parents to see their children. NurseryCam brings a smile to a working mother's face by letting her see her child during the day. Parents use NurseryCam to see their children, not to see the staffs.

Here are some facts about how NurseryCam works that are very important to staffs:

- In response to staff's suggestions, we have now added in a new function which allows nurseries to **limit the maximum viewing time per day**. Most nurseries, it is set to 15 or 30 minutes for each viewing account. This is enough to keep parents happy without interfering with your work too much.
- Your nursery will **limit individual parent's viewing access** to only the room(s) his/her child is in (for eg. bear room and garden) and the time his/her child attends the nursery (for eg. Monday and Wednesday afternoons only).
- The NurseryCam system is **video only** — there is no sound or audio component whatsoever. Staff's conversations, instructions and verbal interactions with the children or each other, are never heard.
- The cameras are **stationary** and cannot pan, tilt, or zoom. Each camera is typically positioned to provide a wide-angle view of a large area or an entire classroom. There is no way to zoom in on a particular child or member of staff. It is not easy to see the facial expression of any child or member of staff. The parents pick up their children by the colour and type of clothing they wear.
- All cameras are **prominently displayed** in common areas. There are no exceptions.
- Staffs in nurseries that offer NurseryCam tell us that the **feedback** they receive from parents is **overwhelmingly positive**. "I never knew how hard you worked until we had NurseryCam." Staffs tell us they receive more compliments from parents than ever before. "Thank you so much for all you do with the children."

Staffs in NurseryCam centres tell us over and over, "At first I was a little concerned, but after a week or so I forgot it was even there." When your nursery makes it possible for working parents to see their children, they'll thank you for making it possible. NurseryCam brings smiles to working parents.

NurseryCam representatives are available to answer your questions. To learn more, you can ask your manager to arrange for a demonstration, or invite a NurseryCam representative to attend one of your staff meetings. If you have more suggestions or concerns, we are very keen to hear from you. We want to make parents happy, not to make staff worry.
